OSBMarket™ Expands LowGrade Program to Cover Entire Continental U.S.

All Continental U.S. states and most of Southern Canada can now buy online

Bellevue, Washington - July 29, 2009 - Silvaris Corporation today announced its most recent expansion of its OSBMarket™ website, and can now cover online sales of off-grade OSB across the continental U.S. and much of Canada.

Silvaris launched OSBMarket (www.osbmarket.com) nearly two years ago and has steadily expanded its coverage since then, to where they are now able to ship products to basically every populous area in North America. Silvaris' development of new relationships with major OSB producers is a key element in the site's growth.

As always, OSBMarket's products are based on TrueMarket™ pricing, meaning that all products are priced delivered to anywhere in the region you are viewing. Customers can visit the site anytime to check current prices and place orders, and the site also provides the TrueMarket™ Index, which is a volume-adjusted market pricing index tool to help buyers make informed purchasing decisions.

"We are excited to be able to offer near-complete North American coverage on OSBMarket," said Kurt Bray, President and CEO of Silvaris. "It has always been our goal to be the leader in the downfall OSB marketplace and this development will help us offer our customers and key suppliers better sales and service than ever."

Silvaris Corporation is a technology-powered trading company specializing in buying and selling wholesale quantities of OSB, plywood, softwood and hardwood lumber, cut stock, and building material surplus and seconds. We trade as Silvaris and as LowGradeLumber, and sell wood panels online at OSBMarket.com. Silvaris Corporation is a privately held corporation headquartered in Bellevue, Washington. Further information is available at www.silvaris.com.
